

VinTech Corp Remote Work Policy

VinTech Corp • Internal Document • Doc No. HR-006 • Version 1.0

1. Purpose

This policy sets out the terms under which VinTech Corp employees may work remotely, in support of flexibility while maintaining team collaboration and business continuity.

2. Eligibility

Employees who have completed their probationary period and whose role does not require regular on-site presence (e.g. front-desk, hardware lab work) are eligible to request a remote work arrangement, subject to manager approval.

3. Remote Work Days

Eligible employees may work remotely up to 3 days per week with manager approval. The specific days should be agreed with the manager in advance and may be adjusted to accommodate team meetings or critical project milestones.

4. Core Hours

Employees working remotely must be available and reachable during core hours, 10 AM to 3 PM local time, for meetings, calls, and collaboration with colleagues, regardless of which days they work remotely.

5. Equipment

Equipment for remote work, including laptops and the one-time home-office setup allowance, is provided per the IT Onboarding Guide. Employees should coordinate with IT before their first remote work day to ensure VPN and security software are correctly configured.

6. Performance Expectations

Remote work does not change an employee's performance expectations. Employees are evaluated on the same project outcomes and competency criteria described in the Performance Review Process, regardless of work location.

7. Reviewing the Arrangement

Remote work arrangements are reviewed periodically by managers and may be adjusted or withdrawn if business needs change or if the arrangement is negatively affecting team collaboration or performance.
