

VinTech Corp Litigation Hold Procedure

VinTech Corp • Internal Document • Doc No. LEG-010 • Version 1.0

1. Purpose

This procedure describes the steps VinTech Corp follows to preserve documents and data when litigation is reasonably anticipated or has commenced.

2. Triggering a Litigation Hold

The Legal department issues a litigation hold notice when it determines that litigation is reasonably foreseeable, identifying the custodians and categories of documents to be preserved.

3. Custodian Responsibilities

Employees identified as custodians must preserve all relevant documents, emails, and data in their possession, and must not delete, alter, or otherwise dispose of such materials until the hold is lifted.

4. IT Support

IT suspends routine data deletion and backup rotation processes for systems and accounts covered by the hold, and preserves relevant data in a segregated location.

5. Scope Review

Legal reviews the scope of the hold periodically and may expand or narrow the list of custodians and document categories as the matter develops.

6. Lifting the Hold

Legal formally lifts the hold in writing once it determines preservation is no longer required, after which normal document retention and deletion schedules resume.

7. Non-Compliance

Failure to comply with a litigation hold notice may result in disciplinary action and can expose the Company to legal sanctions; employees with questions should contact Legal directly.
