

VinTech Corp Physical Security and Access Control Policy

VinTech Corp • Internal Document • Doc No. OPS-013 • Version 1.0

1. Purpose

This policy describes building and badge access control at VinTech Corp offices, distinct from the IT account and system security measures described in the IT Onboarding Guide.

2. Badge Issuance

New employees receive a personal access badge from Facilities on their first day, granting access to their assigned office floor and common areas. Badge access is provisioned based on the employee's office location and department.

3. Visitor and Contractor Access

Visitors and contractors do not receive a permanent badge. Temporary access is issued per the Visitor Management Policy or the Vendor Onboarding Checklist, and must be returned or deactivated at the end of the visit or engagement.

4. Restricted Areas

Server rooms and other restricted areas require additional badge permissions, granted only to designated IT and Facilities staff, with access logged automatically.

5. Lost or Stolen Badges

Employees must report a lost or stolen badge to Facilities immediately so it can be deactivated; a replacement badge is then issued.

6. Tailgating

Employees must not allow individuals without a valid badge to follow them through a secured door ("tailgating"), and should politely direct unbadged individuals to reception.

7. Badge Deactivation

Upon termination of employment or contract end, Facilities deactivates the individual's badge access, coordinated with HR or the Vendor Onboarding Checklist offboarding step as applicable.
