

VinTech Corp Procurement Policy

VinTech Corp • Internal Document • Doc No. OPS-005 • Version 1.0

1. Purpose

This policy describes how VinTech Corp purchases goods and services from external vendors, as distinct from the Expense Claim Procedure, which covers individual employee expense reimbursement.

2. Scope

This policy applies to Company-level purchases of goods, software licenses, and services from vendors, typically initiated by a department on behalf of a team rather than reimbursed to an individual employee.

3. Vendor Selection

Purchases above 20,000,000 VND require at least two comparative quotes before a vendor is selected, unless the purchase is from an existing approved vendor under a master agreement.

4. Approval Thresholds

Purchases up to 20,000,000 VND require department head approval. Purchases between 20,000,000 VND and 50,000,000 VND require both department head and Finance approval. Purchases over 50,000,000 VND require director approval in addition to Finance sign-off.

5. Purchase Orders

All qualifying purchases are documented with a purchase order (PO) raised in the procurement system before the vendor begins work or ships goods.

6. Vendor Contracts

Any new vendor engagement is subject to the Vendor Contract Terms and, where applicable, the Vendor Onboarding Checklist for system or facility access.

7. Invoice Matching

Finance matches vendor invoices against the corresponding purchase order and delivery confirmation before releasing payment.
